**MUCKAMORE ABBEY HOSPITAL INQUIRY
WITNESS STATEMENT**

**Statement of Sean Clarke
Date: 5th September 2024**

I, Sean Clarke, make the following statement for the purpose of the Muckamore Abbey Hospital (MAH) Inquiry.

The statement is made on behalf of the Police Service of Northern Ireland in response to a request for evidence by the Inquiry Panel.

This is my first statement to the Inquiry.

I will number any exhibited documents, so my first document will be "Exhibit 1"

Qualifications and positions

1. I am a qualified Higher Police Analyst working in Public Protection Branch within the PSNI. I hold a degree in I hold a degree in Degree in Criminal Intelligence Analysis.
2. During a 26-year analytical career I have held a variety of roles within the analysis field in PSNI. From 2015 to present, I have worked within Public Protection Branch.

Module

3. I have been asked to provide a statement for the purpose of M4: Police role in safeguarding and responding to allegations.
4. My evidence relates to paragraph 13 of the Inquiry's Terms of Reference.

5. I have been I have been asked to provide a statement for the purpose of assisting the Inquiry identify how I provided a statistical breakdown of "staff on patient" complaints prior to Operation Turnstone from records held by police that was identified and saved as "Muckamore Occurrences Master Sheet".

Q1. Please provide a statistical breakdown of "staff on patient" complaints prior to Operation Turnstone.

6. The initial request asked me to provide a list of all reports made to police re Muckamore up to June 2021.
7. Using 'iBase' [a database used by analysts] I devised a search based upon the following criteria.
 - a. Address contains – either Muckamore, Muckamore Abbey, Abbey Road, Cranfield, Sixmile, PICU or post code contains BT41 4SH
 - b. All addresses identified in areas outside of Antrim – Abbey Road Millisle were then excluded.
 - c. Any duplicate occurrence numbers were removed.
8. This generated an initial list of 5,156 incidents. These were saved in an excel spreadsheet as Muckamore Occurrences Master Sheet. Within this spreadsheet there was the ability to Pivot or filter the dataset. There was also a column that indicated if the incident was linked to Op Turnstone and the month and financial year in which it occurred.
9. I explained how the data could be interrogated using a pivot table [Pivot] and I then produced a few basic tables to show the data by year, Address and Offence Type. Each were saved as a separate worksheet.

10. The spreadsheet was then forwarded to D/Sgt Nadeshda Ferguson.

11. The following caveat goes with this data set:

- a. This is the data that was obtained when my search was completed on in April 2022 and these figures are subject to change as the system updates on a daily basis.
- b. The addresses used were the best variations of the addresses identified. Other variations of these may bring back additional incidents.
- c. There may be a small number of duplicate reports that were reported later that were given a new reference number
- d. I have only provided the list of incidents and the subsequent initial tables and was not involved in the production of any figures for this Inquiry.
- e. There may be some older incidents that were reported pre computerisation that were not linked, but all incidents since 2008 should be recorded.

12. Should the MAHI have any further queries about the spreadsheet or the way in which the data has been gathered I will be happy to provide further information or clarification as required

Declaration of Truth

The contents of this witness statement are true to the best of my knowledge and belief. I have produced all the documents which I have access to and which I believe are necessary to address the matters on which the Inquiry Panel has requested me to give evidence.

Signed: *Sean Clarke*
